QUALITY & TECHNOLOGY plan your future

YESTERDAY Our history

Q&T - acronym for Quality and Technology - was founded in 1984 as a company specializing in manufacturing precision instruments.

Thanks to the vast experience gained in years of activity by its managers, Q&T soon became a leader in the market for the production and supply of equipment, systems, professional and educational facilities.

TODAY Who we are

Q&T today is an innovative reality, motivated by the desire to create new opportunities of high-level development in the world.

The ability to analyze the continuous transformations of modern societies, intuition and determination have favored Q & T in establishing itself, at the beginning of the decade, as an international holding company that can design, manufacture, supply, assisting its clients in the teaching, laboratory, food technology, medical and ICT activities.

MISSION What we do

Through the participation in tenders and contracts for the "turnkey management" of international projects (mostly organized and financed by government institutions), Q&T is committed to improving the quality of people's life.

Q&T activities range from the supply and installation of capital equipment to the training of people. These projects are aimed at social and economic development of beneficiary countries.

INTERNATIONAL PRESENCE

Q&T DELIVERS PROJECT IN MORE THAN 30 EMERGING COUNTRIES SUCH AS:

Algeria, Tunisia, Ethiopia, Congo, Rwanda, Nicaragua, Guatemala, Venezuela, Eritrea, Costa Rica, Argentina, Capo Verde, Senegal, Turkey, Jordan, Bosnia, Romania, Russia, Serbia, Syria, Yemen, Iraq, El Salvador, Egypt, Mexico, Panama, Honduras, and more.....

THE Q&T PARTNERS

The Q&T partners are international organizations and institutions: governments and ministries, military institutions and research centers, companies and multinational corporations, universities, technical and vocational schools, industries and hospitals, in addition to the supranational institutions.

Q&T is also constantly involved in transnational projects financed by the World Bank, the European Commission, the United Nations, non-governmental organizations.

QUALITY

Environmental and Energy Integrated Management System

Quality for Q&T is not an abstract concept but an evaluation key and a constant commitment for each person of the company. For over 15 years we have been ISO 9001 certified and we are finalizing four new certifications:

ISO 9001

Management of Quality system

ISO 14001

Environmental management system

ISO 50001

Energy management system

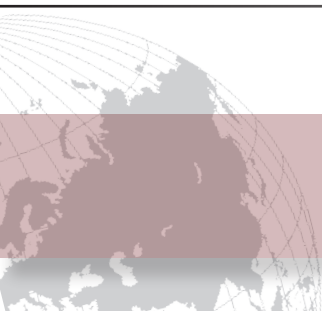

SA 8000

Corporate Social accountability

OHSAS 18001

Corporate Safety management system

MAIN COMPETENCES

MAIN AREAS OF DEVELOPMENT

For over 30 years Q&T has played a central role in the design and realization of international projects dedicated to develop social and entrepreneurial culture of the countries in which it operates.

Q&T is committed to creating ongoing opportunities for growth and progress operating in 5 divisions (Teaching, Medical, Laboratory, Food Technology, ICT) with the aim of training and creating professionalism, renewing the skills and enhancing the abilities.

TEACHING

MEDICAL

LABORATORY

FOOD TECHNOLOGY

ICT

TEACHING

Anywhere you learn

TEACHING

is fundamental to increase the opportunities for growth and fast access into the world of work. Thanks to it, the value of culture is directly reflected both in terms of social development and in terms of economic return

Q&T

by using state-of-the-art engineering technologies and systems delivers high levels teaching projects. These methods aim at defining the scope, methodologies, content and timing of training as well as at identifying, providing and installing the most suitable teaching materials such as the creation of educational workshops.

GENERAL TEACHING LABORATORIES

SCHOOL EDUCATION

Pre-primary education - Methods and Tools Work

Secondary school or higher - Organization, Role, Objectives, Methods

WORKSHOP FOR SCHOOL EDUCATION

Computer	Zoology
Compendium theoretical	Botany
Physics	Biology
Chemistry	Pharmacy
Science of the Sea	Veterinary Sciences
Human Science	

WORKSHOP FOR SCHOOL EDUCATION

Agriculture	Fishing	Public works and hydraulic
Craft Service	Technologies Audio/Video	Electrical and electronic
Computer	Traditional handicraft	Textiles and apparel
Carpentry	Metallurgy	Tourism and catering
Building	Mechanics and steel industry	Glass industry
Chemistry	Optics	

MEDICAL

Anywhere you care

MEDICAL

sector may be the basis for real civic, social and human progress; it is essential in every field, and it must be developed wherever there is a group of persons affected by health problems: in school, at work, in cultural associations.

Q&T

conceives health centers of excellence (specialized hospitals and clinics), reorganizes the processes of the departments dealing with the diagnosis and provides the training of health personnel.

FOOD TECHNOLOGY

Anywhere you eat

FOOD TECHNOLOGY

Nowadays, we are witnessing a change of traditional food service industry that reflects even more than before, our life style. That is the reason for the growing market of "Fast Food" that always seeks structures which are able to offer services in outsourcing for the study, planning, realization and operating support in the management of new business activities.

Q&T

Thanks to cooperation with leading companies at international level, Q&T has become over the years a reference point for planning and realisation of traditional catering, Fast-Food and Free-Flow placed in shopping centers, gas stations, airports, stations, exhibitions, sports centres and conference halls. Q&T activities also include the professional training of all those professional figures necessary for the development of such reality.

ETHICS

Q&T

For over 30 years Q&T has committed to creating ongoing opportunities for growth and progress thanks to the implementation of projects designed to improve the quality of people's lives.

The reputation that Q&T has built in its decades-long history is based on respect for people by defining ethical standards that allow the maintenance of good conduct.

Q&T considers it fundamental to respect the values universally recognized as essential to properly manage working activities. These values are fairness, trust, honesty and loyalty.

These virtues should be highlighted because they are the basis not only of the company's economic success but also in terms of corporate well-being of its employees and all stakeholders with whose Q&T has a relationship: customers, suppliers, commercial and financial partners, agents and consultants of all kinds, local communities and international institutions of the countries in which Q&T operates.
